## PROFESSIONAL SUMMARY

Statistics graduate and early-career Data Analyst with hands-on experience in data preparation, validation, exploratory analysis, dashboard development, KPI reporting, and business insights. Skilled in SQL, Looker, Power BI, Excel, and Google Sheets, with experience translating business questions into useful reporting views. Combines analytical training with customer and operational experience at Sun King.

## CORE SKILLS

**Business Intelligence:** Dashboard Development • Data Visualization • KPI Monitoring • Performance Reporting • Stakeholder Reporting

**Data Analysis:** Data Cleaning & Preparation • Data Validation & Quality • Exploratory Data Analysis • Trend & Pattern Analysis • Statistical Analysis

**Tools:** SQL • Looker • Power BI • Microsoft Excel • Google Sheets • Zendesk • CRM Systems • Angaza • Kazi

**Professional:** Problem Solving • Communication • Cross-functional Collaboration • Customer Experience

## PROFESSIONAL EXPERIENCE

**Data Analyst Intern | Sun King | Jun–Aug 2025**

- Developed multiple Looker dashboards to monitor customer engagement, sales, operational KPIs, and business performance.
- Created Looker visualizations and reports to address business questions and support performance monitoring.
- Used SQL to validate datasets, investigate discrepancies, and support reporting accuracy.
- Translated stakeholder requirements into dashboard metrics and reporting views.
- Investigated data-quality issues and supported corrective actions to improve reporting consistency.

**Customer Engagement Executive | Sun King | 2023–Present**

- Handled 124 customer tickets per month against an expected range of 80–90 tickets, exceeding the upper benchmark by approximately 38%.
- Maintained 100% monthly QA scores while managing customer inquiries and service requests across multiple channels.
- Used Zendesk and CRM systems to track requests, document cases, and support consistent case handling across Angaza and Kazi platforms.
- Identified recurring service issues and shared customer feedback and process-improvement opportunities with relevant teams.
- Collaborated with operations, technical support, and field teams to facilitate issue resolution and timely case closure.
- Supported onboarding by guiding new team members through platform processes and answering questions.
- Received the Best Performance Award for the Prospect team, FY 2023/2024; recognized for top performance during Customer Service Week in 2024 and 2026.

**Customer Support Representative | Blueridge Microfinance Bank | 2021–2023**

- Resolved customer inquiries and complaints while maintaining accurate customer records.
- Built customer relationships through timely follow-up, clear communication, and effective issue resolution.
- Escalated complex cases appropriately and followed established procedures.

## ANALYTICS TRAINING

**Data Analyst Trainee | The Incubator Hub | 2024**

- Prepared and analysed structured business datasets for reporting and insight generation.
- Performed exploratory data analysis to identify trends, patterns, and performance insights.
- Built interactive Power BI dashboards and documented analytical findings.

**Data Analytics Trainee | SkillPaddy | 2024**

- Used Excel and SQL to clean, transform, query, and analyse datasets.
- Applied exploratory analysis to identify trends and generate business insights.
- Created Power BI dashboards presenting KPIs and analytical findings.

## SELECTED ANALYTICS PROJECTS

**Retail Sales Performance Analysis | Excel, SQL, Power BI:** Analysed sales, revenue, product performance, and regional trends; developed a Power BI dashboard to communicate findings.

**Customer Segmentation & Subscription Analysis | Excel, SQL, Power BI:** Explored subscription patterns, customer cancellations, retention, revenue, and regional performance.

**Employee Attrition Analysis | Power BI:** Examined attrition patterns across departments, demographics, and job roles.

**PwC Switzerland Power BI Job Simulation | Forage:** Built dashboard-based analysis for customer retention and performance metrics.
